Fette Compacting

Fette Compacting is the world's leading provider of integrated solutions for industrial tablet production. Since 2016, the product portfolio offered by the technological and global market leader has been supplemented to include highly efficient capsule filling machines. The company specializes in high-performance machines for the pharmaceutical industry. The company's head office and global control center is in Schwarzenbek near Hamburg. Fette Compacting is the only manufacturer of tablet presses and capsule filling machines, operating a dedicated global competence network with fully-equipped and interactively-networked competence centers in Germany, the USA, Brazil, India and China.
