# The alva Training Modules

alva is our digital learning platform with exclusive training content covering all aspects of Fette Compacting's products and solutions. New employees learn the basic principles of the tablet press as well as the entire tablet production process – reliable and available on mobile devices at any time. Our experienced team of trainers has developed all content. User-friendly and interactive 3D graphics and animations support the detailed instructions. In addition to a basic module on the functional principle, the user gets to know everything about the different components and assemblies of a tablet press. Moreover, alva provides comprehensive knowledge on how to increase production and quality. After each module, users have the opportunity to test their knowledge in order to document their understanding of the training content.

## Functional Principle

This basic module provides the user with a general overview of the tablet manufacturing process.

Learning objective:

The user knows the most important terms and components for the tablet production in a rotary tablet press.

## Components and Assemblies

The components and assemblies of a tablet press are explained in various training sessions – from the description of the individual parts to setting and optimization options.

Learning objective:

The user knows the exact function of the component/ assembly, can assess the wear and replace spare parts independently if necessary.

## Process Optimization

This training module addresses the most common topics for improving tablet quality and production efficiency.

Learning objective:

The user knows the most common issues such as weight variations, hardness problems, and product loss and is able to rectify them.

## Complete Onboarding Process

New employees are familiar with the tablet production process and are able to operate and maintain the most important parts and functions of the tablet press.

### Key Features

- + Multimedia training with 3D animations, videos and images make content easy to understand
- + Exclusive content created by Fette Compacting's experts and trainers with over 50 years of expertise in training, application and technology
- + To be combined with live trainings and face-to-face events in the future
- + Download of a learning progress certificate – for a personal proof of qualification
- + For all experience levels: beginner lessons teaching the basic principles and also machine series specific contents

### Benefits

- + The more you know, the more you can do!  
Fast, efficient and correct onboarding knowledge for new employees
- + Learning wherever and whenever you want
- + Higher learning motivation through modern media and individual learning paths
- + Focused on the most important features
- + Designed for the needs of our customers due to joint development

### Technical Requirements

- + Available on every mobile device via browser
- + Best usability with any tablet and computer
- + Personal login and access
- + Internet access
