TECHNOLOGY

COMPETENCE

SERVICE

**FETTE
COMPACTING**
be efficient

Containment package

FE55

Hepa H13 Filter
Real-time display of negative pressure (mbar)

Dust tight docking systems
for feeding/ discharging

OEB3
Dust tight vertical deduster with hermetic sealed metal detector

OEB3
Dust tight IPC Unit for weight, hardness, diameter and thickness

OEB3
Dust tight product container for safe product handling

Window Flaps
with RTP and gloveports, Safe operation during production

- The OEB3 concept**
- Completely contained tablet production line
 - Maximum operator safety
 - Maximum dust between 10 µg/m³ – 100 µg/m³
 - All parameters adjustable from the terminal
 - Compression compartment absolutely dust tight
 - Safety interlock to prevents unauthorized opening of the tablet press
 - Rapid Transfer Port (RTP) allows the transfer of materials into a containment system
 - Dust tight tablet outlet integrated in the column

TECHNOLOGY covers all products in the tableting technology; from tablet presses, to process equipment and tableting tools.

SERVICE includes all services related to machinery and equipment, such as: spare parts supply, installation, system upgrades and technical field service.

COMPETENCE is the generic term for our process-related services. This includes our training programs and compression trials, as well as application and OEE consulting, and engineering.
